

# DEVANSHI SAVLA

## A BUDDING DESIGNER.

### PROFILE

An Enthusiastic and Hardworking student with a High Aptitude in Designing.  
Loves taking up challenges.  
Thrives in fast paced environment that provides consistent my creativity and opportunities for growth.

### ABOUT

Having a strong base in art and craft, designing has always intrigued me. So I decided to take up designing as a career. Since I wanted a more practical approach, I pursued Arts in JC while preparing for design entrance exams like NID and UCEED. After getting into the university of my choice, I took up Product Design as my specialization in the second year, which only increased my inclination towards design. As a passionately curious student, I constantly look to apply my knowledge creatively.

### EDUCATION

#### **Garodia International, Mumbai**

2008 - 2018

Completed IGCSE with 93% in 10<sup>th</sup>.

#### **K.C. College, Mumbai**

2018 - 2020

Completed my Junior College with 87%.

#### **Srishti Manipal University, Bangalore**

2020 - 2024

B.Des in Product Designing.

### EXPERIENCE

#### **RcLit, by the Rotaract Club of Lokhandwala - Informals & Fine Arts HOD. 2020**

RcLit is the first ever online cultural festival with more than 1000 participants, 15 judges, and 50+ celebrities supporting it along with a team of 9 people including me. It was a thoroughly unforgettable journey that grew from an onground festival to an online one. Through this experience I learnt to give my 100% despite all odds and do whatever it takes to achieve my goals. After managing 17 events together, the team worked with superb co-ordination like a well-oiled machine and thus we managed to achieve the unachievable which was also the theme of the event by conducting an online fest that has never happened before in the history of Rotaract & inter-collegiate events. Throughout this journey I made many new friends and expanded my contacts which also helped me gain new professional knowledge and further improved my communication skills.

#### **Rotaract Club of K.C. College - Partners-in-Service Director. 2019-2020**

Being the director at the second best Rotaract club in Mumbai, I have been the chairperson of 40 events conducted throughout the year. I also won the best director thrice, best avenue for a month twice and the best executorial avenue at the Official Club Visit. Along with executing exceptionally creative events, I also nurtured the Co-ordinator and Avenue Committee Member of our team to be the future leaders. By creating strong bonds during the year, I became more confident and ran up the learning curve during my year.

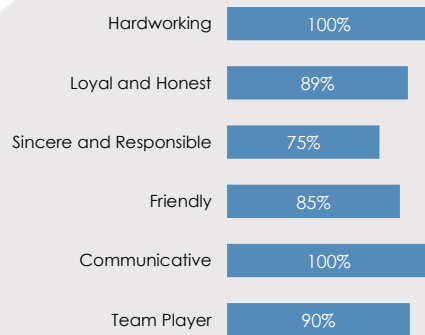

#### **Artsy Craft, by the Leo Club of Bombay Uptown - Head and Instructor. 2019**

This was an art event in where I taught a batch of 20 students 3 interesting activities namely string art, bottle decorations and fluid art. It was a great experience that taught me valuable skills in human resource/relation management while giving me an opportunity to nurture people's curiosity. It was a memorable journey from the trial run to the final day.

#### **International, DSO, MSSA Handball Player 2016**

Through sports I have understood the value of team work, co-ordination and perseverance. Having dealt with the worst situations by quick thinking, I will be able to do the same in life as well.

## INTERNSHIP

### Decorative - Intern

Working as a design intern during lockdown in 2020 from a work-from-home setting to help the firm make brochures and also designing COVID-19 products they aimed to release in the market. I also was the Social Media Manager for their firm. I designed all the PDF releases to send across groups and to customers. This helped me explore the needs of a customer and brush up on my Photoshop skills. This also helped me pass my time during the lockdown making sure that I was productive.

### Eurasia Academy of Languages – Intern

I am interning with the academy as a graphic designer, curating various pictures for their social media and handling their social media page as well. I have not only made the Instagram posts; I have also worked on their launch video for their YouTube Channel along with making the headers for all the social media platforms.

### Ignite Panda – Intern

I am interning at this firm as a designer and business development officer, aiding SEO and building the website for the company.

### Valia Designs – Intern

This was a project based internship I got wherein I worked on building the website, app and logo for clients. From making a website for luxury cats and dogs product to designing a foldable menu for a Chinese restaurant, I had a great time interning and definitely learnt a lot of new things!
