Futur Educoz

Dear Sir/Maam.

I would like to apply for a internship position for Web Development from work from home. I am currently pursuing my BCA specialization with cloud computing and IT-IMS from Poornima University Jaipur. I believe that I am fully qualified and possess everything needed for this position and therefore I am submitting my application today.

This Internship give me a chance to learn and gain expertise in different areas of Web Development and Amazon AWS and also provide me a great opportunity to see what's it like to work in this industry. and I also having a good experience in web development and Cloud computing and I worked on Amazon AWS , Microsoft Azure during my college semester and I practically Implemented task on this cloud service provider and I also have a good knowledge of Web Development because I do a in-office internship of web development in WTS Business Solution. where I can learn many more new things. and I am confident i would be excellent addition to your organization. In addition to my knowledge base, I actively seek out new technologies and stay up-to-date on industry trends and advancements. this allow me to give my best work to the company.

I am confident that I am good candidate for the position you are requiring, so I would like it very much to have an opportunity to further discuss with your regarding offer at Futur Educoz.

Sincerely,

Navdeep Sharma
